

## NEED TRANSPORTATION TO GET YOUR VACCINE?

Ottawa West Community Support (OWCS) is working with 3 other Community Support Service agencies, the City of Ottawa and 211 Ottawa to ensure that any senior or adult with a physical disability that needs a ride is able to get it:

Those needing assistance should first be directed to call Para's COVID-19 Vaccination Trip Reservation telephone line at 613-842-3600, if they are a current Para Transpo client. If they are not a Para Transpo client, they can request a ride online, free of cost, through Ottawa Community Transportation

(<https://communitysupport.covidresponse.ca/transportationvaccination>). We are asking that transportation be booked at least 48 hours in advance of an appointment.

**\*\*If someone requires transportation but does not have online access, they can call 211 and they will help complete the transportation request.\*\***

**NOTE:** vaccine appointments need to be confirmed before calling for transportation. We cannot book transportation unless we have a date, time and location of the vaccine appointment.

Additional information is available on the Ottawa Community Transportation site: <https://communitysupport.covidresponse.ca/transportationvaccination>
